Samuel Gompers Dead

Climate of Mexico City
Brings On Illness and
Labor Leader Dies On
Hasty Return to U. S.

PICTURESQUE LIFE

By WM. P. FLYTHE
(I. N. S. Staff Correspondent.)

Mexico City, Dec. 11.—Samuel Gompers, 74-year-old president of the American Federation of Labor, died this morning at Sannicolas, a small town near San Luis Potosi, according to a message received here today by the labor leader's friends.

Gompers' heart was unable to function as he was being taken over a high mountain range, the message stated. Gompers was en route by train to the United States. He had suffered a relapse yesterday and was being rushed home.

Gompers was stricken with a heart affection when he came here recently to attend the inauguration of President Calles and yesterday he suffered a relapse. It was decided by his friends to rush him to the United States in the hope that the lower altitude would improve his condition. The route of the train led through the highest mountainous section of Mexico.

Immediately the despatches stating Gompers was dead reached Mexico City, railroad officials at once tried to get in touch with the train to obtain further details but they were unsuccessful.

The mountain range in the vicinity of Sannicolas is the highest along the route of the International and Great Northern Railroad to the United States. Gompers was being rushed to a lower altitude.

The message reporting Gompers' death said that three physicians who were attending the noted American labor leader, had used every device to keep him alive until a lower altitude was reached.

The life of Samuel Gompers is the story of the rise of a poor immigrant to a position of power, of comparative affluence, and a domination in the labor world such as no man before him ever had.

He has been aptly called the father of the American labor movement. Whether the description fit or not, certainly he fathered, mothered and nurtured the American Federation of Labor from a somewhat sickly infant organization in the early eighties to its present full strength.

He gave his life to it. He helped to found it, and for 40 years he helped it as president, weathering storm after storm, defeating enemy after enemy, whether within or without the organization. At his death he must have found satisfaction in the fact that under his skillful pilotage the American Federation of Labor is the greatest labor organization in the world, in membership and influence on the economic life of any country.

American historians will accord Samuel Gompers an important place in the history of the republic in the century between the civil war and the world war.

Gompers was born in London, the son of Dutch-Jewish parents. He left school at an early age and became a cigarmaker's apprentice, emigrating to America early in his teens. Here in the new world he found the movement toward labor organization just beginning. He threw himself into it with all his youthful enthusiasm, and native ability.

He rapidly rose to the presidency of his local, became one of the charter members of the present American Federation of Labor and in 1882, at barely over 30, he became its president. He was re-elected annually thereafter until his death—a span of 42 years—which saw the labor movement rise and fall like the tides of the ocean. His last election took place at El Paso only a few weeks ago.

He ruled the Federation with an iron hand—or did until advancing years took their toll and brought up a new crop of younger leaders who in recent years rather dominated the organization. But they never stripped "the old man" as he was affectionately called, of all his power, and he continued a dominant leader until his death.

Much of Gompers' success in building up his organization was due to his keen political sense. He early

SAMUEL GOMPERS

determined upon a non-partisan attitude in national elections, and while he, himself, was often strongly partisan, his organization seldom was. The Federation was more partisan in 1924 than ever before in its history, going over to La Follette lock, stock and barrel. This was due to a considerable extent to the younger leaders who came up from the ranks to challenge the "old man's" domination and dictation.

There reposes in the United States Supreme Court today a case on appeal wherein Gompers was sentenced to serve a year in the penitentiary for contempt of court. This arose out of the old Buch Stove and Range Company fight in St. Louis nearly 20 years ago. It has never been decided.

One of the greatest blows Gompers ever sustained was in the famous McNamara case, wherein the McNamara brothers were tried and convicted of dynamiting the Los Angeles Times building. Gompers denounced their arrest "as a plot to discredit labor" and he backed their defense with A. F. of L. funds and with every resource at his command. The confessions were a severe blow to him.

"Labor has been deceived," he said. To the day of his death he never liked to talk about the McNamara case.

Gompers was an important national figure during the world war, which he supported. When the cry came for industrial output beyond anything ever dreamed of, Gompers turned all the resources of his organization toward speeding up work in factory and shipyard. He went to Paris after the war as a member of the Wilson peace commission.

After the world war, Gompers devoted his efforts largely to two things—maintenance so far as possible of the high wages labor enjoyed during the war; and the weeding out of "reds" and bolsheviks in the organization.

He remained a bitter foe of Russian Communism until his death, and an equally bitter opponent of American recognition of Soviet Russia. Nearly all of his last public papers and addresses have dealt with this "red" question.

The aged leader is survived by a widow and one son, Samuel Gompers, Jr., who is chief clerk in the Department of Labor.

He was twice married. His first wife died some years ago, leaving a son and daughter. The daughter died a few years ago. He re-married two years ago.

Mexico City, Dec. 11.—Samuel Gompers, veteran President of the American Federation of Labor today was making a valiant effort to stave off death until he reached the land of his adoption.

On a stretcher, he was carried aboard a train for the United States last night, with the hope that he might live to reach a lower altitude and possible relief from the lung complication taking serious toll of his 74 years.

Physicians attending him during his three day illness from bronchitis and what is feared to be "twenty-four hour pneumonia" were dubious of Gompers surviving the trip, as the route northward crosses two mountain ranges at least a mile higher than Mexico City. In his weakened condition, he has had trouble breathing the rarefied air of the Mexican capital.

The aged leader, English born, but a figure in American labor circles for forty years, after a delicious night under care of three physicians, told

ARTHUR C. DALE TO BE NEW JUDGE OF CENTRE COUNTY

In a telephone conversation with Senator William I. Betts of Clearfield today, Governor Finckel told him that he had today tendered to Arthur C. Dale, Esq., the judgeship for Centre county courts and that Mr. Dale has accepted. Mr. Dale is the present district attorney of Centre county and his appointment brings about a rather peculiar situation in that under the regular procedure he would as judge have to name his own successor. This may be handled in a different manner, however, by him submitting his resignation prior to assuming the judgeship and putting the burden of naming a new district attorney on another.

Mr. Dale is a comparatively young man, about 45, and a very active official as district attorney. It is understood that the contest narrowed down to Attorney Keller and Mr. Dale. It is believed that Keller was the organization choice. Dale is also supposed to have been favored because of his dry activities. When elected to the office of district attorney, Dale, although a Republican, ran on the Democratic ticket as a "dry," defeating the regular Republican nominee.

Third Party Cause Is Still Being Pushed By The La Follette Heads

By KENNETH CLARK
I. N. S. Staff Correspondent
Washington, Dec. 11.—Leaders of the Progressive movement which supported the independent presidential candidacy of Senator Robert M. La Follette, of Wisconsin, were gathered in Washington today for the opening tomorrow of the executive committee of the conference for Progressive political action.

Under instructions for its Convention last June, the committee is charged particularly with making recommendations on the establishment of a permanent new third party in the United States.

Four major things are to be considered by the committee, William A. Johnston, chairman and President of the International Association of machinists, announced today. These are:

- 1.—Issuance of a call for another National convention of the conference.
- 2.—Review of the La Follette campaign.
- 3.—Recommendations for the establishment of a third party.
- 4.—Recommendations for participation in national and State elections.

Action of the American Federation of Labor at its El Paso convention in flatly turning down appeals to unite with a third party will not in any way halt efforts to lay the ground work for the new movement, Johnston said.

AUGUST BELMONT DEAD

New York, Dec. 11. (INS).—Funeral arrangements were being completed today for August Belmont, internationally known financier and sportsman who died last night from cellular inflammation following an operation on his right arm. Burial will be in the family vault at Newport, it was said.

Belmont, who was 71 years of age, came of a family which for generations had been important financial figures.

JURY COMMISSIONERS ARE AT WORK

Jury Commissioners Harry Connors, of Burnside, and A. Y. Straw, of Pike township with Sheriff Tom Lowell as umpire, are hard at work now filling the jury wheel for the coming year.

ED. B. CHASE NOT IMPROVING

We regret to have to announce that Deputy Register and Recorder Ed. B. Chase, who was taken seriously ill at Goshen Camp last week, remains in a serious condition at his home on West Locust street. Mr. Chase is suffering from Bright's disease and little hope is held out for his recovery.

MORE GOING UP IN SMOKE

Washington, Dec. 10. (INS).—An enormous increase in American consumption of tobacco during the last decade was revealed today when the Internal Revenue Bureau announced that per capita tobacco tax in 1915 was \$0.795 and for the fiscal year just ended was \$2.905.

Regarding increased taxes on tobacco products, these figures would indicate an increase of about 350 per cent in ten years.

Local Band Secures Services Of Former Curwensville Bandman

The Clearfield Italian Band at a meeting last evening engaged Prof. Ciccolo, formerly in charge of the Curwensville American Legion Band to take charge of the band here. Prof. Ciccolo has already moved his family to Clearfield and will take over the directing of the band at the first of the new year. He will succeed Russell Mitchell, who has been in charge for some time, but whose other business interests require all his attention.

Prof. Ciccolo is not only a finished musician but a skilled director and teacher and the local board is to be congratulated upon securing his services.

It is the intention or purpose of those interested in this band to make the organization a representative Clearfield organization, and membership will be open to boys and young men of all nationalities.

They hope to secure at once ten to fifteen boys between the ages of 10 to 18 years and this will be a fine opportunity for such young men to start or acquire a musical organization.

All prospective members are requested to get in touch with Joe Iannaro or Joe Lodo or to come to the band room in person any Monday or Friday evening.

ROTARY HEARS FINE PAPER ON WORK OF C. P. ACCOUNTANT

There was a fine turnout at last night's meeting of the Clearfield Rotary Club held at the Hotel Jordan. President Gurney Smith was in charge and at the conclusion of the routine business of the club turned the meeting over to Past President G. A. Stewart, who is chairman of the Educational Committee. The chairman then introduced Rotarian Albert Schiettinger, who read a highly interesting and instructive paper on "The Certified Public Accountant."

Rotarian Schiettinger gave his hearers a new "slant" at this most necessary adjunct to every business man's entourage in these days of so many and such diversified taxes and his paper was greatly appreciated.

President Gurney announced that the date for ladies' night had been changed from Wednesday, Dec. 17th to Tuesday, Dec. 16th, in order to accommodate the speaker of the evening, and promised a real time on that occasion.

The Boys' Work Committee announced that they had their plans in shape for the usual Christmas entertainment for Clearfield kiddies.

Rotarian Al B. Reed gave a five-minute talk on "The Rotarian," the magazine of Rotary, and counseled its careful reading by the members.

A number of guests, including Paul Ferris and Frank Evans, of the Altoona Rotary Club, were present.

A \$50 contribution was made to the Red Cross.

4 YEAR OLD IS DECAPITATED IN CROSSING CRASH

Lisbon, O., Dec. 11 (INS).—Bessie, aged four, daughter of J. Robinson was killed while her mother and a younger child escaped unhurt today, when a Pittsburgh, Lisbon and Western freight train struck their automobile at a crossing near Signal, O. The girl was decapitated.

The family recently moved from Pittsburgh to a farm near Signal.

MINERS RE-ELECT BROPHY-GILBERT, MARKS-GHIZZONI

Miners of District No. 2 held their annual election Tuesday last when approximately 25,000 members of the United Mine Workers of America went to their polls and cast their ballots for candidates who had been duly nominated six weeks ago.

Returns are being assembled slowly at district headquarters in Clearfield and, while meagre, indicate that all of the old officers of importance, have been re-elected.

President John Brophy and Secretary Richard Gilbert had no opposition and the chief contests were between James Mark of this city, and Jerry Ford of Patton, for vice president and Ghizzoni and Thomas for international board member.

Thirty locals out of nearly 200 in the district gave Marks a total of 2,303 votes and Ford 461, while Ghizzoni has about the same lead over Thomas. Marks and Ghizzoni are incumbents.

"MASTER INFORMER" WILL TELL ALL IN HIS BOOZE RING EXPOSE

By DAVID SENTNER
I. N. S. Staff Correspondent

Jersey City, N. J., Dec. 11.—A "master informer" was introduced today into the investigation of the \$50,000,000 rum running scandal of Northern New Jersey.

Samuel Wilson, Superintendent of the New Jersey Anti-Saloon League, sent a letter to Col. George T. Vickers, special prosecutor in the inquiry of the bootlegging syndicate. Wilson explained that "a man who knew everything" had offered his services as informant.

Wilson would give no details of the man's identity, other than to say he was "one who knew more about the bootlegging industry than any man in the country."

The fifteen hundred parishioners of Father George F. Bennett, were rallying around their "fighting priest" today to protect him from possible attack. Father Bennett has got letters warning him "he would not be alive to say mass on Christmas Day."

Father Bennett, of the St. Lawrence Catholic church in Weehawken, whose activities were instrumental in the exposure of bootlegging conditions along the Weehawken waterfront, has not even reported the threats to police, according to his parishioners.

The twelve men under indictment connected with rum smuggling were to be arraigned today before County Judge Kinkead. Their bail of \$10,000 each will be continued. The men indicted include nine Weehawken policemen, a Hudson boulevard police captain, a township police commissioner and William Griffin, of Jersey City, alleged to be the guiding genius of the rum ring.

WILLIAMSPORT SUN PRAISES "FAUST"

The Williamsport Sun speaks in glowing phrases of the production "Faust," which will be given here tomorrow evening at the Driggs theater. The company which will play here tomorrow night played Williamsport night before last to a crowded house, which gave enthusiastic approval.

Under The Dome Of The Capitol

Harrisburg, Dec. 11 (INS).—From all parts of the State, political leaders of every faction, have been visitors on the Hill and in conference with W. Harry Baker, Republican Chairman of the State.

The primary cause for the early visits to the Capitol is over the selection of a speaker of the House, according to those on the "inside" and with several bidders for the place already in the field and organization leaders failing to come to a compromise, promise is given of a lively time during the early days of the session.

None of the leaders would venture a definite opinion as to who the speaker and the several chairmen of the committees would be, but Mr. Baker, is one of the busiest men on the Hill at the present time, trying to iron out some of the wrinkles in the organization and thus, bring harmony among the several factions during the 1925 session. At a meeting in Philadelphia, in the near future, tentative selections for the several positions will be made.

If the Legislature is to give sincere consideration to the finances of the State, they will, in all probability study the budget and the report of the Taxation Commission at the same time.

This was indicated when it was learned that the Commission will not report its findings until several weeks after the session has convened. The budget report of Governor Pinchot will be made about February 1. Meetings will be held here after the opening of the session to hear final suggestions before whipping into shape report of the Tax Commission.

Speculation is keen here at the present time over what the W. C. T. U. will do if the Governor is again refused the \$250,000 which he desired in the 1923 session to enforce the "dry" laws of the State. It is generally agreed that the 1925 session will be antagonistic toward him. Last session the W. C. T. U. appropriated money to carry on enforcement and whether they feel that the money has been wisely spent and are ready to give even more is a question of grave concern.

However, organization leaders will pay close attention to the selection of the chairman of the Law and Order Committee, which will handle the Governor's supplementary enforcement measures.

Because of the abridgement of the Smull's Legislative Handbook, the directories of the both branches of the Assembly will be larger, containing, in addition to the names, addresses, and occupation of the several members, the rules of both houses.

Meanwhile, those members elected to the Assembly for the first time call at the Capitol daily, make themselves known and then wander into the Chambers and try their new seats.

Contributions of clothing, money and toys may be sent to the Hipsps-Whitmarsh Specialty Shop, not later than Saturday, Dec. 20, and names to the Red Cross, H. & C. telephone 39. Carmel man, known only as "Frank," who last night shot and killed Mrs. Sophie Seelinski, 25, and then ended his own life by firing a bullet into his forehead. Mrs. Amelia Winch, at whose home the double tragedy occurred, said the dead woman told her that she came here from Mt. Carmel to escape "Frank's" unwelcome attentions.

Frank followed her, arriving Tuesday night. Mrs. Seelinski's 3-year-old son is with her parents at Mt. Carmel, police said.

ODDS AND ENDS
AND THINGS

By J. D. C.

THIS IS A CRUEL WORLD

This is a cold, drab, cheerless world, full of disillusionments and disappointments, and we are finally convinced the fellow who said the pen was mightier than the sword saw a pen wielder in search of a deer. We got back into the harness this morning after a week in the deer woods. We took up the hunt last week with high expectations, firm in the belief that if Editor Stewart could get a deer almost anybody, including ourselves, could score. Alas for the rarity of christian charity under the sun. We found when we got to camp that Stewart had killed his on the first drive opening morning just twenty minutes after daylight and before the poor unfortunate buck learned the season had come in. Then, not content with this exhibition of his deer slaying prowess Stewart spent the next three days chasing th

deer around our hunting grounds and made them so darn wild we couldn't get nearer than within a mile of a buck all the time we were out.

However, we found things mostly alright when we got back to civilization with the exception of the town clock. Coming events cast their shadows before them, 'tis said so we infer the total eclipse of the old clock in the Court House tower, which is responsible for us getting home at 9 p. m. every night, is no doubt due to the total eclipse of the sun scheduled for North America on Jan. 24th. But wait 'til next year.

Getting out this paper is no picnic. If we print jokes, folks say we are silly.

If we don't they say we're too serious.

If we publish original matter, they say we lack variety.

If we publish things from other papers, we are too lazy to write.

If we stay on the job, we ought to be out rustling news.

If we are rustling news, we are not attending to business.

If we don't print contributions, we don't show proper appreciation.

If we do print them, the paper is filled with junk.

Like as not some fellow will say we swiped this from an exchange.

So we did.

FIND A SUBSTITUTE

By FLORENCE DAVIES

What, no Christmas trees? Might as well talk about killing off the fairies.

Surely no more beautiful custom exists than our age-old use of the Christmas tree with its richly-laden, star-tipped branches.

But the time has come when thoughtful people are begging us to find some other symbol for our Christmas celebrations. And these are not hard-hearted, matter of fact sort of people utterly without sentiment for a beautiful custom. They are those who know what the waste

of the Christmas tree market will mean to the future of our country.

A hundred years ago, even fifty years ago, when this country had many fewer million homes and many more miles of almost limitless forest, the loss of a few thousand Christmas trees, tiny shrubs which only cluttered up the forests any how, made scant impression upon our forest reserves.

But today, there is a vast difference. The forests are shrinking and the demand for trees increases by leaps and bounds. Last year, thousands, perhaps millions of baby trees were cut only to be wasted. Other thousands of fine young trees of five or ten years growth were cut

COURT NOTES

Emile Derson, an Atlantic moonshiner, was convicted in criminal court yesterday of violating the liquor law and sentenced by Judge Chase to pay a fine of \$400 and costs and serve four months in the county jail. One of the jurors named Larson, was taken violently ill while in the jury room and had to be placed in the care of a physician. The other eleven jurors returned the verdict.

Walter Kessler of Sandy township, paid \$100 fine and costs for the illegal possession of a quart of shine.

William Harpster of near Tyrone was convicted on a paternity charge, and directed to pay \$25 fine and costs and \$2 per week for 14 years. A \$300 bond for the carrying out of the sentence was required and when it was not forthcoming Harpster went to jail.

Jacob Donkowski, of Helvetia, charged by the State Police, with the possession of some ether beyond the one half of one per cent limit, was placed in the same category with

Says---Now Stiff Joints Must Go!

New Discovery Limbers 'Em Up and Even the Creaking Ceases.

Yes; it's true---the world progresses. All you have to do nowadays to limber up the stiff, inflamed, rheumy is to squeeze a half inch of miracle working substance from a tube.

Then rub it on the suffering part for about a quarter of a minute or until it soaks through the skin and disappears on its errand of mercy.

Then read the evening newspapers and go to bed.

The chances are that your misbehaving knee joint will lose its "creak" while you are dreaming about the high fences you used to leap when you were a youngster.

"And in the morning," says one who has tried the new discovery, "you'll feel so happy that you'll want to jump into your sportiest clothes and walk briskly down the street just to show the neighbors that you are not as old as they think you are."

Joint-Ease they call this wonder working substance, for the reason that when ordinary remedies fail to limber up the stiff, inflamed, rheumatic joint, or reduce the swelling, Joint-Ease succeeds.

It's a good name for a good, clean penetrating prescription that in just a few months has proven to a multitude of people that lame, swollen, distorted joints can speedily have the kinks taken out of them and work as smoothly as ever.

But Joint-Ease is for bothersome joints, whether 1-knee, ankle, hip, shoulder, spine or finger, and for that purpose its sale is immense.

Stewart Drug Co. has a big supply of it and druggists everywhere report a big demand.

Always remember when Joint-Ease gets in joint agony gets out---quick.

Congressman Hill, of Maryland when Judge Chase directed a verdict of not guilty and the county pay the costs.

Stanley Tomask, a small shop keeper of DuBois, was placed on trial this morning charged with a statutory crime, the alleged victim being a little girl 11 years old. Tomask is being prosecuted by Constable Nesley his attorneys being Bell & Breckbank, McCall and J. Mitchell Chase represent the defendant.

Harold Hepburn, of Grampian, has entered a plea of guilty to the attempt to rob Garage Keeper Bensall of that town. He is in jail, being given a chance to think over the other like crimes committed at Grampian the past couple of months, in the hope that he may remember having had a hand in them also. He will be sentenced later in the week.

Nervous?

Stamina, Force, Power, Ambition, Persistence of Purpose---All Are Lacking.

Don't grow old before your time, don't let nervousness wreck your happiness or change in life. The man with strong steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm, step, new courage and keen mind by putting nerves in first class shape with mighty Lifetone Tablets, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is take two Lifetone Tablets after each meal and two at bedtime for two weeks.

Then if your energy and endurance haven't increased, if your mind isn't clearer and eyes brighter, if you don't feel ambitious as of old, Stewart Drug Co. or any druggist anywhere will return the purchase price---gladly and freely. 72 tablets \$1.00.

DIXON - WILLIAMSON

The marriage of Miss Arlene Dixon and Mr. James Williamson was solemnized at the home of the bride's parents near Wallacetown Tuesday of this week. The ceremony was performed by Rev. S. A. Farver of Tarentum, Pa., an old time friend of

the family. The young couple will begin the journey of life together well equipped to build a home. A bungalow house is now in process of erection and they will occupy it on completion. The groom is employed at the Harrison Walker works. The bride was lovely in a dress of powdered blue tulle trimmed with silver leads and ribbon. Best wishes.

All Kinds of Trains \$5.75 to \$62.50

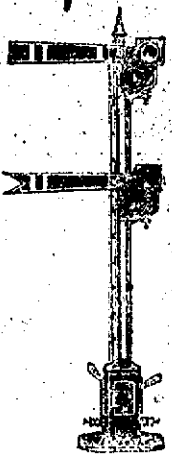

The easiest way to teach a boy is thru the medium of play. With one of these trains, your boy will learn the fundamentals of mechanics, electricity and train operation.

Buy That Boy An Electric Train

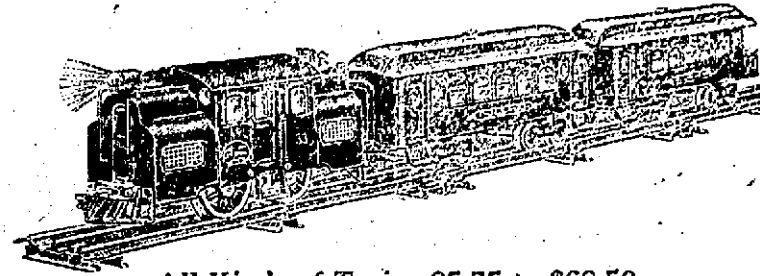

Bring his dreams of having a really, truly train of his own to a realization. He will spend hours with the train. He will learn patience. He will learn many mechanical fundamentals and not realize that he is learning.

LIONEL trains are constructed so that your boy will get the maximum of pleasure without having to bring the engine or the train to the store every few days for repairs. The mechanical make-up is perfect. Patterned after the huge locomotives used in the actual operation of trunk line railroads.

A constructive plaything if there ever was one.

All Kinds of Trains \$5.75 to \$62.50

Possibly your boy already has a train. This simplifies matters somewhat. You can buy him some new track, some signals, a station, a bridge, a set of gates, a cross-over, a switch tower or some new cars. We have all these new things and it will mean renewed interest in his present train.

With some of this new equipment, there is no end to the combinations your boy can work out, using the old and the new.

Drop in and look over the train showing we have ready for you. We suggest early selections in view of the fact this stock cannot be filled in later on from our manufacturers.

Curwensville's Own Column

At a recent meeting of Joshua Earl Sipes Post, American Legion, the following officers were elected for the ensuing term: Post commander, Douglass Dunsmore; first vice commander, Jacob Kantar; second vice commander, Lewis Vaughn; adjutant, Paul G. Robison; finance officer, Clarence H. Ammerman; executive committee, Thomas Sheridan, C. A. Brown, Joseph Dagato, David Dunn and James Booth. A plan is under way by which a drive will soon be started for increasing the membership. There are a number of ex-soldier boys still out of the fold and an effort is to be made to have them enroll as members of this post. A series of weekly dances will also be one of the features of the Legion during the winter months.

A business meeting of the W. C. T. U. will be held at the home of Mrs. W. D. Gates, South Filbert street, on Friday evening, December 12th, at which time all members are requested to be present.

The bazaar conducted in the Fred Robison room by the ladies of the Presbyterian Church yesterday was quite well patronized by folks who were out on the hunt of Christmas novelties. The sale was continued today.

Mr. and Mrs. Harry Leib have gone back to their home in Stewartstown. Mrs. Leib was visiting while Mr. Leib spent a week out in one of the mountain camps.

Harry Hoffman came in from Big Run and is now working for the Dell tannery. He is a brother of Mrs. Jack Fross, Locust street.

Mr. and Mrs. Moyer have moved from Chestnut Ridge and are now located in the Reuben Elger home. Moyer is an employee at the Dell tannery.

A little daughter of Mr. and Mrs. Joe Conrad is ill at the parental home suffering from an attack of pneumonia.

Curwensville auxiliary of the Red Cross has sent to the Aughinbaugh family a budget of clothing, food, etc. Members of the Presbyterian Church also forwarded a large donation to the same worthy family.

William Wolf and wife, of DuBois, were in Curwensville yesterday calling on relatives and former friends.

A large number of hunters who have been on the mountains in camps for a week past have returned to town and their homes. Deer are being brought in by those who were lucky enough to shoot one. Kelly's crew brought in five nice fat bucks. Some of the meat no doubt will find its way into the homes of friends and those who were unable to make the rifle for a hunting trip this season. Of course the Progress man does not expect to receive a gift of venison this season but we are not envious at all.

The town of Lumber City will hereafter enjoy the privileges of a regular rural delivery route, mail to be delivered to that town from Curwensville, Grampian and intermediate points. The new route is a tryout, and if successful up until July 1st will be put on the map as a regular route.

Handel's Messiah. Handel wrote his great oratorio, the "Messiah," in twenty-four days. He puts into music, which has been called the language of angels, the glorious story of the Gospel. "I did think, I did see all heaven before me, and the great God Himself," he said, after writing the immortal Hallelujah Chorus.

STOCKS RECEDE
By W. S. COUSINS
I. N. S. Financial Editor

New York, Dec. 11.—The flood gates of speculative selling were opened in full force on the stock exchange today in a greater outpouring of stocks than in yesterday's selling movement. Prices tumbled quite generally all over the board with some of the industrial leaders showing losses in the maximum of five or six points.

As in yesterday's session the entering wedge came with the dislodging of the ball rolling, prices receding rapidly, wiping out most of the gains acquired in the last two weeks and placing the oil again near the low prices of the year.

With its clean, white fixtures, the modern bathroom protects health.

Antiquated bathroom fixtures—or none at all—means a home lacking much of the comfort it should possess.

cities American Water Works and other stocks which featured the market in the first period were brushed aside. American Can sold down to 144 3/4 for a loss of over 2 points. Cast Iron Pipe at 133 1/2 was down five points; U. S. Steel lost 1 1/4 at 115 1/2; and General Electric was down 3 at 270 1/2. There was a sudden halt in the rally in Copper and motor stocks which sustained the market in the three previous sessions of the week though these stocks were inactive rather than weak while the storm was passing over.

Industrial reports were generally favorable. Additional, extra dividends gave evidence of the profitable nature of the operations of many large

Insoluble Glue.

In order to render glue insoluble in water, even hot water, it is only necessary when dissolving the glue for use to add a little potassium bichromate to the water and to expose the glued part to the light. The proportion of potassium bichromate will vary with the circumstances, but for most purposes about one to fifty of the amount of glue used will suffice.

When Leaves Fall.

Below each slide but on the hickory twig is a triangular scar marked with heavy dots, says Nature Magazine. Last year's leaves left these scars when they fell. They were careful enough, however, to heal the wound before they fell, otherwise the tree would suffer from the loss of sap as you would from the loss of blood when wounded.

Common Sense—Plus!

There's a quality in people that for want of a better name will have to be called "uncommon sense".

It's that little something extra that makes a person appreciate the opportunities to save money and gain satisfaction that fill the Progress Classified columns every day.

Not that common sense isn't all right—in its way. It tells you to make your money go as far as it can and bring you as much as possible in return.

But it's the people with uncommon sense who are getting what they want and saving their money through the opportunities offered in the Progress classified columns every day.

There's profit and satisfaction there for you today—tomorrow—every day that you read the Classified ads!

St. Louis news today: Man asked a policeman to shoot him. Maybe he believed what his wife said about him.

Christmas is coming in Chicago. Girl says she forgives a man who shot her in the eye.

Our selection after much thought, of an All-American football team this season is Mr. and Mrs. Santa Claus.

What means Christmas in four letters? No it isn't "Xmas." Give up? Well, that's it. It is "Eye."

Bad luck news today. Car load of eggs broken in a train wreck. And the hens so busy trying to lay up some for Christmas.

Life, to a turkey, is just one darn holiday after another.

Christmas and Thanksgiving were put a month apart to give us all time to get hungry again.

Only four more shopping months before Easter. How time flies. And here Easter comes by time. No hum.

Prosperity is coming back unless we start yelling and scare it away.

The only real relief for a bad cold seems to be cursing.

A very practical costume for the chilly nights is a stove trimmed with an easy chair and a book.

Be careful when buying eggs for Christmas. They may be bad. And the same is true about the noggs. (Copyright, 1924, NMA Service, Inc.)

Happy Men.
I had been working in my garden. The sun was just below the horizon and the dew was already on the smooth green walks bordered by sweet-smelling roses and carnations. The stillness of the evening was broken only by the whistling of a blackbird. I sat down on a rude seat I had formed beneath an old tree, and, as I thought of the fruits and plants that were ripening around me, I exclaimed to myself, "How happy, if they knew it, are they that till the ground?"—William Barnes.

Hunting Camp News

One of the finest bucks of the season was bagged by Mr. William Spackman of this city. It carried a pair of antlers with ten points, almost a rare specimen these days, although the e have been plenty of 8 points brought in.

The butchers up Grampan way are thinking of asking for a tightening of the game laws. Grampan hunters are indeed a lucky crowd. By last Saturday evening no less than fifteen bucks had been brought to town and they continued to come in every day. There's said to be at least one more come as Davis just went after his this week.

The Fahy-McDonald Camp at Hellville broke camp at noon Wednesday with five nice bucks. The hunters of this camp report deer more plentiful than ever and say they left a lot of bucks around their camp to sport bigger horns for next year. We'll see about that.

Frank Ball of Hillsdale was the Daniel Boone of the Pine Stump Camp whose members are now back at work after a pleasant outing in the wilderness.

The deer hunters are keeping up the slaughter of bucks as the season wanes toward the end. Crooked Run Camp landed No. 6 yesterday afternoon. Otis Knepp is charged with the killing of this one.

Earl Smith, the Third street furniture dealer, hustled out to the top of the mountain on the Penfield road Tuesday morning and took up his stand just beyond the fire tower a day broke. A few minutes before 3 o'clock a philanthropic old buck sported 8 points attempted to sneak back into the game reserve after a merrily out with the lady deer along the headwaters of Anderson Creek, and one shot from Smith's rifle brought the buck to earth.

Gum Swamp Camp broke up yesterday morning, having their legs

bag of bucks. When Alton and Pearl Davis arrived at camp, Buck No. 6 knew the jig was up and walked out to be dispatched as mercifully as possible.

Dec Hollow hunters broke camp yesterday with the season's limit of six bucks. They got five the first week of the season.

Pitch Pine camp got their limit yesterday morning. Sam Selfridge downed No. 6.

SUFFERED WITH PILES FOR YEARS

Says Hamadala Has Cured Him

152 Main St., Buffalo, N. Y., August 16, 1924.

Gentlemen: I have been troubled with piles for twelve or thirteen years and although I consulted several of the best recommended physicians, and used various salves prescribed by them as remedies, I was never able to obtain relief.

Through an acquaintance I was advised to try Hamadala Pile Tablets, which I did. I took just one box. Nearly four months have elapsed since I stopped taking the tablets, and there is no sign of the piles returning. I am therefore writing this letter with the absolute belief that Hamadala Tablets have positively and permanently corrected my trouble. Yours very truly,

JOHN A. McALLISTER.
Hamadala is an internal constitutional treatment for blind bleeding, protruding piles. It is a perfect under refund guarantee by S. W. Drug Co., and all good druggists. Out of town sufferers can obtain by mail. Price \$1.00.—The Hamadala Co., 152 145, Buffalo, N. Y.

Transportation Facilities.

In a recent statement it was announced there were 55,230 passenger cars owned and in use by the American railways, the seating capacity being about 2,270,000, while there are 9,500,000 motor cars owned in the country, with a seating capacity of 47,000,000.

Uselessness.

About the most useless worry we know is the anxiety of the bald-headed man about whether or not he looks funny to people who are topped off with hair.—Richmond Times-Dispatch.

Have Natural Food Supply.

In the plantless depths of the ocean the denizens largely depend for their food supply upon the ceaseless rain of dead animals which sink through the miles of dark, cold water.

"Not Worth a Rush."

The saying "not worth a rush" dates back to the days before carpets were invented, and the floors were strewn with rushes. When an honored guest was expected fresh green ones were cut and spread—but people of little consequence had to be contented with rushes that had been used, while still humbler folks got none at all.

Our Own Time.

A genuine love of your own time is the recognition in which you meet in it, of those best moments which crave to be made accessible even for the remotest of ages following.—John Erskine.

Why the Salmon Is Pink.

Men of science were long puzzled to know why the various salmon and trout have red or pink flesh. Now they believe that the color comes from the food they eat. All of the salmon family are fond of shellfish.

Only Way to Escape From Past.

Oh, there are some who want to get away from all their past; who, if they could, would begin all over again. But you must learn, you must let God teach you, that the only way to get rid of your past is to get a future out of it.—Phillips Brooks.

Reveal True Character.

The Most Important Event of Winter Has Arrived

"The Boys" Start Selling Better Suits & Overcoats at Sharp Reductions

Winter Suits and Overcoats are bought during the early summer. We have to guess at the weather for the coming winter. This year we guessed wrong. The weather during the time we would customarily be selling Fall and Winter Suits and Overcoats was as mild and summer-like as early September. You can realize what that means to the tremendous stocks we had bought for you. They

remained on the racks. It is against our business policy to carry Winter Overcoats over to the next season. They must be sold. And we planned to let you have the benefit of the weather slip-up at a time when you may take advantage of the sharp reductions we are making. Everything we offer will make acceptable Christmas gifts. Take advantage of the reductions to give more and better men's and boys' gifts than you ever have done before.

You know the qualities of the Hart Schaffner & Marx, the CLOTHCRAFT and the Society Brand suits. You know each of them are tailored up to a standard rather than down to a price. You know the style points of Hart Schaffner & Marx and Society Brand suits. You know the wear-like-iron and

the shower-proof qualities of CLOTHCRAFT. There are many materials, serges, chevrons, fancy weaves, worsteds and there is enough colors to suit you. In fact these suits are our regular winter stock being sold at pre-holiday savings to you. And look at the savings you can make!

Three Groups of Overcoats

Hart Schaffner & Marx
and Society Brand

Think of buying a Hart, Schaffner & Marx or a Society Brand Overcoat at winter-end prices at the beginning of Winter! That's what you can do here. We cannot afford to carry them over and have made the price attractive enough so that we know these coats are going to meet with your approval. There are many styles in the lot. There are the big burly ulsters, there are the dressier Chesterfields, there are some novelty weaves and stylings.

Each and every one is a genuine garment. It carries the maker's name. And here is your opportunity to get a wonderful overcoat at the beginning of the cold weather at a price that precludes wearing your last year's coat another season.

If you young folks are planning a real gift for Dad, why not one of these coats?

Ruffles a Feature

DRESSES this season depend upon their chic for little unexpected touches rather than elaborate ornamentation. On this green crepe frock the two which form the skirt are attached in the front with a jabot that breaks the conventional and forms a charming decoration. The upper part of the costume would not be more severely plain.

Stampeding Sentiment.
"Why did you discontinue vaudeville as a feature of your campaign?" "It was too popular," answered Senator Sorghum. "Some of the anti-entertainers said the monologist made a better speech than I did and ought to be put on the ticket."—Washington Star.
